DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
2. Claims 1-6, 8-10, 12-16 and 18-25 are rejected under 35 U.S.C. 103(a) as being unpatentable over either Smith et al. '186 in view of Applicant's prior art and WO '170, all as applied to the claims in the previous Office Actions.
 - a. As was explained in the prior Office Action(s), Applicant's prior art admissions acknowledged that it was known to provide a ferroelectric capacitor defined by an intersection of row and column electrodes sandwich a ferroelectric film common to the massive matrix array. WO '170—acknowledged by Applicant as being conventional prior art in the present specification—provides additional details about the conventional periphery circuitry that was not fully explained by Applicant's prior art admissions. See e.g., col. 7, lines 15-18 and FIG 10 teaching that the conventional FEPMA's were driven by peripheral word-line and bit-line drivers. The limitation, "separately fabricated" was addressed previously.

Response to Arguments

3. Applicant's arguments filed 11/4/2003 and 12/10/2003 have been fully considered but they are not persuasive for the reasons set forth previously and hereinabove.

Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
